

**WE MAKE THE EQUIPMENT
YOU MAKE HISTORY**

#WHATSYOURLIMIT

WORLD CUP REBELS LINE

BUILT FOR THE BEST, BY THE BEST.

This season, racing history will be made. Because, in the Rebel's world, our research and development is constantly refining all our products. That's why you can have complete trust in everything we make.

A commitment to precision, performance and winning. If one person sums up what World Cup Rebels purpose is, that person has to be Aksel Lund Svindal, which is why we have worked with him to develop the all new race line.

“ A ski you can fully trust with more grip on the snow, letting you fully focus on your technique. ”

BEHIND THE SCENES

Athletes and engineers. Two jobs, one goal.

The problem with a superbly engineered ski is, if it performs well, you hardly even notice it. It's exactly the same for a well-designed ski boot. It's so precise, you're not really aware of it at all. But that's the whole point, don't think about the ski or the boot or any other part of your kit, just focus on one thing – the finish line. And that's exactly how it should be.

At HEAD, we're inspired by those who focus on what matters, people who have their eyes on the prize and breaking records. If you ever visit our headquarters in Austria, you'll see that these are the kind of people we hire. These are the people who know that technology and engineering can be the difference between the glory of winning and the agony of defeat. Together, we're pushing skiing forward, inspiring more and more people to put on our equipment – and then to promptly forget about it and just enjoy this beautiful sport.

Our goal is to give you total freedom. You don't have to think of anything except your own performance. This is our purpose.

**We make the equipment –
you make history.**

GOOD VIBES

THE WORLD'S ONLY ELECTRONIC SKI DAMPENING SYSTEM

EMC – ENERGY MANAGEMENT CIRCUIT

Reducing negative vibrations so you can fully trust
the ski and focus only on your own performance.

GOOD VIBES ONLY

You can trust EMC to deliver smooth skiing and exceptional edge grip, whatever the conditions. When the ski bends and vibrates, it takes the kinetic energy in the ski and transfers it into electrical energy, which is then used to absorb negative vibrations for a smoother, more stable experience.

WORLD CUP REBELS E-SL RD FIS

Slalom pros and advanced skiers just found their ultimate competition ski.

ART.NUMBER	LENGTH	SIDECUT	RADIUS
313020	151 (not FIS conf.)	111 / 65 / 96	11,9

	100825 Freeflex ST 16 Brake 85 [A]

THE NEW MASTERS' RACE WEAPON

In season 20/21 HEAD offers a dedicated Masters ski for the first time.

One new model in four different sizes, same wider footprint, distinguished only by its radius. Therefore we can offer a tailor made setup for each individual needs and requests.

The skis offer the same construction and technology as the FIS certified models. The big difference is the wider footprint as it delivers a less aggressive setup but full performance. The lower radius allows for easier and super manoeuvrable handling.

That would be the best characterization as the Masters rules don't follow the FIS rules.

WORLD CUP REBELS E-GS RD

The perfect ski for your next giant slalom mission.

ART. NUMBER	LENGTH	SIDECUT	RADIUS
313040/313050	176	102 / 65 / 87	23,0
313040/313050	181	102 / 65 / 86	25,0
313040	186	104 / 65 / 87	25,0
	188	102 / 65 / 85	27,5

PRODUCT FEATURES

EMC, Graphene Worldcup Sandwich Construction, RD Racing Top Sheet, Race Structured High Speed UHM C Base, Rebel Camber, Infra-Red Base Waxing
